BUSINESSES FOR INCLUSIVE LOCAL THRIVING (BILT) LAB
BUSINESSES FOR INCLUSIVE LOCAL THRIVING (BILT) LAB

The BILT-Lab is an action learning opportunity for business leaders who want to develop a future-ready talent strategy and accelerate regional innovation and resilience by making targeted place-based investments in regional workforce and innovation.

The course will bring together place-based “anchor” companies and large employers, along with their local partners, who want to develop a future-ready talent strategy and accelerate regional innovation and resilience by building diverse regional talent pipelines; reducing barriers to workforce participation; creating quality jobs; and boosting energy security and ecosystem health. Ideal participants are invested in creating future-ready organizations and in building the prosperity of their local communities. Participants should be willing to approach problems with curiosity and share experiences openly with peers to support shared learning.

Led by experienced teachers, researchers and industry-tested professionals, BILT-Lab will help participants identify and highlight impactful, place-based investments that produce measurable economic, social, and environmental outcomes. Participants will learn about and implement solutions for talent development and community health that companies can deploy inside their walls as well as outside in the communities where they operate.

WHEN
Oct 8, 2024 - (1pm-2pm ET, live online);
Oct 10, 2024 (11am-12pm ET, live online);
Nov 14-15, 2024 (Cambridge, MA), Dec 16, 2024 (1pm-3pm ET, live online)

Optional Virtual Office Hours available Oct 21 & 24, 2024

PRICE
$4,900 per participant*
Teams of 3: $12,495
Teams of 4: $16,660
Teams of 5: $20,825

*Individual participants are welcome, but we encourage companies to send teams of three or more for maximum impact (and savings).

WHERE
Hybrid: Cambridge, MA and Live Online

EXECUTIVE CERTIFICATE TRACK
Management and Leadership
WHY BILT FOR EXECUTIVES?

BILT-Lab will guide participants through creating the following:

- **Gap Analysis of Organizational and Regional Talent Demand and Supply**: Participants will compare their company or business unit’s talent pipeline and sustainability goals with the regional talent supply and opportunities for growth through skill (re)development programs, partnerships, and employer demand signaling.

- **Talent and Community Investment Strategy**: Prioritized plan and concrete action steps for high-leverage changes needed to advance future-ready talent goals, company strategy and community benefit.

- **Implementation and Stakeholder Engagement Plan**: 30-day action plan including internal actions and external outreach as needed to build industry-wide and cross-sector collaborative partnerships. Because talent needs can rarely be solved by one organization alone, this will include an assessment of the key external stakeholders who must be engaged and initial action steps to take in the next quarter. Interact with key leaders from across sectors, including prominent special guests.

IDEAL CANDIDATES FOR BILT

- Human Resources/People Managers
- Corporate Planning and Strategy Executives
- Community Relations Managers
- Chief Sustainability Officers or designees
- Executive VPs
- COOs
- VPs of Talent Development, Recruitment, Workforce
- Other senior managers with leadership responsibility

Individual participants are welcome, but we encourage companies to send teams of two or more for maximum impact. More than one company from a region can send participants if they share the same talent needs and challenges. Multi-company, or regional, participation is encouraged to represent the strength of the energy sector in your region.

**COURSE HIGHLIGHTS**

- This course is delivered in a hybrid model with one in-person session on the MIT Sloan campus in Cambridge, MA; the remaining sessions will be online.

- BILT-Lab will guide company participants through a process to 1) identify what elements of their company’s strategy tie into the region’s economic growth and sustainability strategy, 2) identify high-leverage moves to train and hire related sources of diverse, high-potential talent in the community and region, and 3) design appropriate long-term community engagement plans that advance company strategy and generate positive local benefit.

- Participants will define and advance a performance goal that is aligned with their existing priorities and represents a challenge for their organization and for themselves personally. BILT-Lab faculty, coaches, and peers will support participants to make measurable progress on their goal and preparing a plan for continuation after the conclusion of the course.

- Participants will learn through a variety of formats including content delivered by guest speakers and academic experts, executive and peer coaching, session prework, dialogue and learning forums, and presentations that they will prepare and deliver onsite.

- Participants will have access to an MIT faculty member and coach to support them in accomplishing their course objectives, plus support from MIT Sloan Executive Education to answer administrative or technical queries.

- Participants will earn a certificate of course completion from MIT Sloan Executive Education.

---

**Strategic Focus Areas**

- **Innovation, Entrepreneurship & Economic Growth:** Job growth, accelerator funds, innovation ecosystems, regional economic strategy, brending
- **Talent Identification and Hiring:** Identifying hiring gaps, talent matching, skills-based hiring
- **Developing Talent “Cradle to Career”:** Early childhood to college, adult learning/upskilling, nontraditional workers
- **Workforce Barrier Alleviation:** Housing, childcare, transportation, healthcare, digital access
- **Quality of Life, Sustainability, Resilience, Justice:** Clean energy, climate, infrastructure, resilience, neighborhood environment

*An example of how local issues are nested, starting with the core of economic growth and talent development.*
Sample schedule

Sample outline of each week in the BILT Lab:

- Live Online: 3-4 hours
- Onsite (Cambridge, MA): Two-day in-person delivery
- Optional Virtual Office Hours

**DAY 1 (ON CAMPUS)**

**8:30am - 6:00pm**

**TABLE SETTING (1.5 hrs)**
Participant introductions, issue definition, and goal identification individually and in small groups.

**CORE CONTENT & FRAMEWORKS (2 hrs)**
Expert teaching, panels, and guided working sessions with academic thought leaders, industry experts, and business leaders.

**LUNCH ONSITE**

**PEER & BEST PRACTICE BREAKOUTS (2 hrs)**
Facilitated break-out sessions with like-minded organizations, sharing of best practices and hardest challenges.

**LUNCH ONSITE**

**STRATEGIC PLANNING (2 hrs)**
Guided strategic planning session facilitated by MIT faculty, with peer and expert coaching.

**RAPID CYCLE WRITE-PITCH-EDIT (1.5 hrs)**
Write up your strategic plan and present it to faculty and peers. Receive feedback and incorporate edits into your plan
MEET THE CO-FOUNDERS

KATE ISAACS
MIT Sloan Senior Lecturer

Kate Isaacs advises senior leaders and teams on organizational strategy and innovation-focused stakeholder partnerships that generate economic and social value. She draws on design thinking, system dynamics, and developmental psychology to help leaders create conditions for collective intelligence, agile performance, and transformative change. She is a Shadow Work coach who focuses on the positive potential in people and organizations—transforming obstacles and habits that block people’s natural orientation towards creativity, growth, and health.

TOM GIORDANO
Executive Director, Partnership for Rhode Island

Tom Giordano is an experienced advisor to CEOs and Governors and a nationally recognized fundraising and social impact executive focused on creating spaces for collaboration around infrastructure, sustainability, education and the workforce. He holds a bachelor’s degree in political science from Providence College and an MBA from New York University’s Stern School of Business. Tom is a resident of Rhode Island and serves as a local volunteer and public school parent.
FEATURED FACULTY

PHIL BUDDEN  
*MIT Sloan Senior Lecturer, TIES*
Phil Budden focuses on innovation-driven entrepreneurship (IDE) and innovation ecosystems. His approach combines academic, historical and real-world perspectives on how different stakeholders can all contribute to building successful innovation ecosystems.

ROBERTO FERNANDEZ  
*MIT Sloan Professor Post Tenure of Organization Studies*
Fernandez currently serves as the co-director of the Economic Sociology PhD Program and served as the head of the Behavioral and Policy Sciences area from 2008-2010. His research focuses on the areas of organizations, social networks, and race and gender stratification. Fernandez has extensive experience doing field research in organizations. His current research focuses on the organizational processes surrounding the hiring of new talent.

DAVID A. FOSTER  
*Distinguished Associate, Energy Futures Initiative*
David Foster is a Visiting Scholar at the Massachusetts Institute of Technology’s Energy Initiative where he has written extensively on climate policy and social equity for the Roosevelt Project. Previously, Foster served as Senior Advisor to U.S. Secretary of Energy Moniz from 2014-2017. Prior to working at the Department of Energy, he served as the founding Executive Director of the BlueGreen Alliance (BGA), a strategic partnership of 14 of America’s most important unions and environmental organizations with a combined membership of 14.5 million.

MALIA LAZU  
*MIT Sloan Lecturer, TIES*
Malia Lazu, an award winning, tenured strategist in diversity and inclusion has sparked deep economic development and investment in urban entrepreneurship for over twenty years. In her most recent role as EVP and Regional President at Berkshire Bank, Malia worked to generate wealth for communities by expanding access to capital and spurring economic growth—especially in communities of color that have traditionally been left behind.

*Faculty may be subject to change.*
**Featured Faculty**

**CEASAR MCDOWELL**  
*Professor of Practice of Civic Design*  
Ceasar McDowell is a Professor of the Practice of Civic Design at MIT and Associate Head of the Department of Urban Studies and Planning. He is also Associate Director of the MIT Center for Constructive Communication, and Chair of the Master in City Planning Program within DUSP. Ceasar teaches on civic and community engagement and the use of social technology to enhance both. His current work is on the design of civic infrastructures and processes to connect the increasingly demographically complex public. He co-hosts the WeWhoEngage podcast series on civic design.

**CHRISTINE ORTIZ**  
*Former Dean of MIT Graduate Education*  
Christine Ortiz is a higher education leader, board director, nonprofit trustee, professor, engineer, former dean, and social entrepreneur with a passion for emerging integrative research, transformative pedagogies, social mobility and impact. She has led large cross-disciplinary teams and research grants. She also participates in board service across sectors and has experience in executive leadership, corporate governance, capital allocation, government and regulatory affairs, international business, strategic planning, and community engagement.

*Faculty may be subject to change.*
JENNIFER BENSON
Principal at TSK Associates
Jennifer is a policy expert who teaches business leaders how to influence legislation and public policy. At TSK, she advises renewable energy clients on how to impact Massachusetts decarbonization efforts. Before joining TSK, she served for three years as President of the Alliance for Business Leadership (ABL), and for 11 years as an elected Massachusetts State Representative.

DICK GOCHNAUER
Co-Founder, CLAOC Managing Partner, SoCal Master Fund
Dick Gochnauer is Managing Director and Board Member at Southern California Master Fund, which supports entrepreneurial innovation, and Co-Founder of the CEO Leadership Alliance, Orange County California, which helps shape a positive future for all OC residents. Dick retired in May of 2011 as Chief Executive Officer of Essendant, a Fortune 500 wholesale distributor of office and business products in the US, and currently serves on multiple company boards.

BRAD HEWITT
Retired CEO, Thrivent Financial
Brad Hewitt served from 2010 to 2018 as CEO of Thrivent Financial, a Fortune 500 company and the country’s largest fraternal benefit society. He serves on multiple boards, has chaired Habitat for Humanity, and served as co-chair of the Itasca Project in the Twin Cities, now part of Greater MSP, an employer-led civic alliance focused on building a thriving economy and expanding prosperity for all.

FRANCESCA IOFFREDA
Founder, Breakthrough Strategy Partners; Nonresident Senior Fellow, Brookings Metro
As CEO of Breakthrough Strategy Partners, a consulting firm focused on economic development, Ioffreda has supported regions on their place-based development strategies for the Economic Development Administration’s $10B Tech Hubs program and worked with business and civic alliances across the country to develop shared impact models to address talent and opportunity gaps. As a Senior Advisor to the Bloomberg Center for Cities at Harvard University, Ioffreda is helping create an economic development curriculum and strategy for the Center’s future expansion.

*Guest speakers may be subject to change.*
BRUCE KATZ
Co-Founder of New Localism Advisors
Bruce J. Katz is an expert in helping cities define unique, differentiated strategies and create convincing applications that attract major federal funding. The organization he co-founded, New Localism Advisors, helps cities design, finance and deliver transformative initiatives that promote inclusive and sustainable growth.

FRED KELLER
Founder of Cascade Engineering
Fred Keller started in Grand Rapids, Michigan in 1973 with a belief that treating employees with dignity and respect is fundamental to business success. He is a co-founder and chair of TalentFirst, a catalyst for the development of an integrated talent system to meet employer needs throughout 13 West Michigan counties. He serves on multiple boards, and served as co-chair of K-Connect, a Kent County collective impact systems change collaborative.

MADELINE SCHOMBURG
Director of Research, Energy Futures Initiative
Dr. Madeline Schomburg’s research focuses on energy justice, examining access and inclusion in policy processes, and decision-making. Most of her work has focused on domestic unconventional oil and gas development, investigating the role of interest groups in mobilizing constituents to participate in political processes, and the role of policy entrepreneurs in diffusing relevant policies throughout the United States. She is broadly interested in human-environment interactions and the ways in which people mobilize for change around environmental policy problems, particularly in the context

JOHN RICE
First Nations Elder Knowledge Keeper, Orillia, Canada
John Rice is a Ojibwa and a 3rd Degree member of the Three Fires Midewiwin Society. He has made it a life passion to study the “Mlikaans” Teachings which are about the whole development of the human before, during and after life. John is a Storyteller, Big Drum Carrier, Ceremonilist, Singer and Dancer who brings a unique perspective on “place” to place-based talent development and systems change.

*Guest speakers may be subject to change.
To attend the program, applications must demonstrate commitment in three domains:

**COMMITMENT TO OPPORTUNITY**
Dedication to diverse talent pipelines, closing the opportunity gap, and driving inclusive economic growth

**COMMITMENT TO REGION**
Lifting up not only your internal needs, but local and regional needs as well

**COMMITMENT TO SHARE**
Come curious, able to listen and learn, and willing to support shared learning
