

6 weeks (excluding orientation)
Entirely online
Self-paced learning
6-8 hours/week*

**The recommended weekly time commitment for core content is 4-5 hours, taking into account the busy lifestyles of working professionals, with an additional 2-3 hours recommended for non-compulsory weekly extension activities, should you have the time. Each module is released weekly, allowing a flexible but structured approach to learning. You'll be supported as you engage in individual activities and group discussions, ensuring you feel confident to submit your best work at each weekly deadline.*

You'll leave the program with key insights for integrating AI-enabled projects across different business environments, including your own:

- Module 1: Rethinking AI: Designing Intelligent Systems and Processes
- Module 2: Taxonomy of AI-Enabled Process Functionality
- Module 3: The Role of Data-Enabled Models in the Design of Intelligent Decision Processes
- Module 4: Data Infrastructure and Workforce Capabilities and Related Challenges
- Module 5: Selecting and Managing AI-Enabled Projects
- Module 6: End-to-End Implementation: Practically Integrating AI
